Health Benefits (Code 1900s)

People eligible for Income Support also receive health benefits for themselves and their dependants, unless they receive coverage through the federal government or full coverage from their employer. Income Support health benefits cover basic dental care, eye exams and glasses, prescriptions, essential diabetic supplies and emergency ambulance services.

People leaving Income Support (ETW and BFE, with employment income) may receive benefits through the Alberta Adult Health Benefit (AAHB) for themselves and their dependants. The AAHB is also available to women during pregnancy if they have limited household income, and households with high ongoing prescription drug costs in relation to their income. Other families with limited income may apply for health benefit coverage for their children through the Alberta Child Health Benefit program.

If a person has sufficient ongoing income to meet their needs but is unable to meet an emergency health need, a Voucher or Emergency Drug Authorization may be issued.

Income Support helps unemployed people find and keep jobs, helps people cover their basic costs of living and helps employers meet their need for skilled workers.
