

• Invitation

Monday April 27th, 2026 • 8:00 - 9:15 pm ET

REGISTER NOW!

Canadian experts will share key insights and highlights from the **Advanced Technologies & Treatments for Diabetes (ATTD) Conference**.

• Scientific Planning Committee

Anne-Sophie Brazeau, PhD, RD
Associate Professor,
Associate Director,
School of Human Nutrition,
McGill University

Akshay Jain, MD
Endocrinologist,
Clinical Instructor,
University of
British Columbia

Michael C Riddell, PhD
Professor,
School of Kinesiology
and Health Science,
Faculty of Health,
York University

• Learning Objectives

After completing this program, participants will be able to:

1. Underline the latest innovations pertaining to improving glycemic metrics, lowering hypoglycemia and hyperglycemia, and facilitating self-management
2. Apply technology-forward strategies into diabetes management and treatment in the clinical setting
3. Distinguish diagnostic and predictive patterns in glycemic metrics measured by continuous glucose monitoring that can be incorporated into early intervention and promoting patient autonomy

Under the guidance of the Innovative Medicines Canada Code of Conduct, this program is for healthcare professionals only. This learning program was made possible through the support of Dexcom Canada.
