Find TDD for Loop App using Apple Health on iPhone

Fastest option:

1. Pull down on the middle of the iPhone screen and type INSULIN
2. Click on Insulin Delivery (it will be under the heading HEALTH)
3. Choose Day, Week, Month, or 6 M and the answer displays up top
4. If you touch a bar in the graph, it will display units basal, units bolus

If above fails

1. Open Health App
2. Summary
3. Show all health data
4. Insulin delivery (you may have to scroll a lot to find)
